

How NET15 brings affordable Internet in the OR Tambo district in the Eastern Cape

About

Singa Tel Pty Ltd, trading as NET15, has over 10 years experience providing VoIP and internet services to residential and business clients in South Africa (mainly serves areas in the OR Tambo district in the Eastern Cape, such as Qumbu, Tsolo, Mthatha and more). An ICASA-registered, Level 1 BEE provider, NET15 is known for reliable, cost-effective communication solutions in a competitive market.

Services

WTTN

Public WiFi hotspots

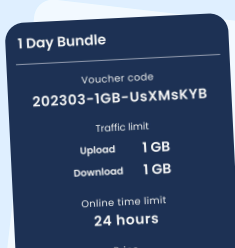

VoIP services

Equipment

Urban Connect Networks uses a standardized MikroTik setup for reliable performance, centralized management, and scalable network operations.

Paid Vouchers Selling

Wi-Fi monetization model

Urban Connect Networks monetizes its hotspots through low-cost Wi-Fi **voucher sales**, easily generated and distributed across multiple locations, making it suitable for offline environments and reseller networks.

Why Powerlynx

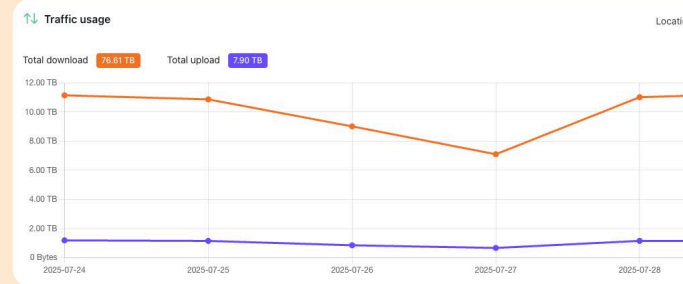

Urban Connect Networks implemented Powerlynx as its first and only hotspot solution, selected for its cost-effective, user-friendly platform. The deployment was seamless, supported by clear documentation and responsive technical assistance, as Urban Connect Networks mentioned.

Features

Customer management

Urban Connect Networks uses Powerlynx to manage user data, monitor voucher usage, and track sessions, improving oversight and reducing abuse.

Changes with Powerlynx

✓ Successful Deployment

Urban Connect Networks deployed hotspots smoothly with Powerlynx and received no user complaints

✓ Customer Growth

Urban Connect Networks expanded and grew its customer base effectively by partnering with Powerlynx

Working Experience

For Urban, working with Powerlynx has streamlined hotspot management and improved workflow with an intuitive system and regular updates.

“

Powerlynx has been an excellent solution for our hotspot deployments. The platform is easy to use, backed by clear and well-documented guides, which makes setup and management straightforward. Their support team is always available and eager to assist, resolving any issues quickly and effectively. With Powerlynx, we are able to bring reliable internet services to underserved areas, helping us play a part in closing the digital divide.
